

# ÉTIENNE COMPÉRAT

Predoctoral Fellow in Economics, University of Zurich

[Website](#) | [GitHub](#) | [LinkedIn](#) | [E-Mail](#)

**Research Interests:** Economic History, Political Economy, Spatial and Regional Economics

## Education

**Sciences Po** 2023–2025

M.Res. in Economics, PhD Track

Master's Thesis (16/20): “Enrichissez-vous!": Education, Suffrage, and Local Development in July Monarchy France

Jury: Roberto Galbiati, Emeric Henry (advisors), Kevin O'Rourke

*Awarded Sciences Po Prize for Best Master's Thesis*

**University of California, Berkeley** 2022–2023

Full-Year Exchange Program, B.A., Dept. of Agricultural & Resource Economics

GPA: 4.0

**Sciences Po** 2020–2023

B.A. in Economics and Political Science

*Cum laude*

## Research Experience

**Predoctoral Fellow in Economics** | University of Zurich July 2025–Present

Supervisor: Hans-Joachim Voth

- *Untitled* (with M. P. Squicciarini and N. Voigtländer): build reproducible historical data pipelines from archival, textual, administrative, and geospatial sources, with historical geocoding and GIS integration for a project set in Revolutionary France; review period historiography to inform a coding framework for downstream analysis.
- *Image(s)* (with D. Yanagizawa-Drott): contribute to the computer-vision workflow (image preprocessing, labelling and validation, supervised model training, feature extraction, and name extraction) and to the appendix analysis of name norm-deviation.
- *Fighting for Growth* (with B. Caprettini and A. Trew): contributed to the documented replication package by writing clean, reproducible code for the empirical analysis.

**JPE Replicator** | University of Chicago July 2025–Present

Data Editor: Florian Oswald

- Conduct independent replications of accepted *Journal of Political Economy* articles under editorial supervision: verify tables and figures from authors' replication packages, review code, run reproducibility and robustness checks, diagnose data and code issues, rebuild software environments when needed, and prepare detailed reports for the Data Editor.

**Research Assistant** | Sciences Po Summer 2025

Supervisor: Roberto Galbiati

- *Dreyfus Affair: Polarization and Resistance during WWII* (with S. Lauterbach and B. Marx): collected, transcribed, and cleaned archival donor records to construct an individual-level dataset on anti-Dreyfusard mobilisation in late nineteenth-century France.

**EJ Replicator** | Royal Economic Society 2024–July 2025

Data Editor: Florian Oswald

- Conducted reproducibility checks for accepted articles at *The Economic Journal* using authors' replication packages under editorial supervision.

**Research Assistant** | Sciences Po Summer 2024

Supervisors: Roberto Galbiati, Aurélie Ouss

- Collected, cleaned, and documented individual-level administrative data from police reports, press sources, and death notices for post-1980 France; contributed to data integrity checks and CNIL/GDPR compliance

documentation.

## Research Assistant | CEPREMAP

Summer 2023

Supervisor: Mathieu Perona

- Contributed to the construction of a database on well-being economics researchers and conducted background research for projects in cultural and well-being economics.

## Research Assistant | University of California, Berkeley

Spring 2023

Project on Arms Trade History (PATH)

- Extracted nineteenth-century arms-trade data from French customs reports (*Tableaux généraux du commerce de la France*) using archival microfilms, contributing to the construction of a historical database on the global arms trade.

## Methods & Programming

---

**Empirical methods:** causal inference, panel data, spatial analysis, text analysis, computer vision.

**Historical data:** archival data construction, historical GIS and geocoding, OCR, web scraping, record linkage.

**Programming:** Python, R, Stata (advanced), Julia (intermediate).

**Tools:** Git, L<sup>A</sup>T<sub>E</sub>X, QGIS, Google Vertex AI, reproducible workflows.

## Graduate Coursework

---

**Core Sequences:** Econometrics I–III; Macroeconomics I–III; Microeconomics I–II

**Computational Economics:** Dynamic Programming; Incomplete-Market Models; Numerical Solution Methods

**Selected Fields:** Economic History; Political Economy; Urban & Regional Economics; International Trade; Demography

## Languages

---

**Native:** French | **C2:** English | **C1:** Italian | **B1:** German

## Additional Experiences

---

**Assistant Project Manager** | Agence Française de Développement

Summer 2022

Conducted economic and environmental analysis of transportation infrastructure projects in Pakistan.

**Teaching Assistant** | Sciences Po

Fall 2021

Teaching assistant in Comparative Political Institutions, undergraduate level.
